FEATURED BENEFITS

- ✓ Combination of two state of the art fiber shapes making this the perfect product for moderate to heavy traffic areas.
- ✓ S blade with Luster GuardTM ribbed surface texture is the lowest luster UV stabilized turf yarn in the industry. These microscopic ribs eliminate the shiny mirror effect that makes artificial grass look like plastic.
- ✓ S-Blade yarn system takes durability to the next level! It's fiber wear was tested at 50,000 cycles (50,000 cycles= 20 yrs of wear). This Lisport test gives a visual indication on how a synthetic turf system will age in time.
- ✓ The ribbed blade also eliminates weak points in the fibers creating unprecedented split resistance.tt
